

Title: Supplementary Data 1.

Description: Marker expression, X/Y cell coordinates, cell-type annotation, and cellular neighborhood assignment for all segmented single-cells identified by CODEX.

Title: Supplementary Data 2.

Description: Raw counts of aligned transcripts for every gene in the transcriptome per tissue microarray spot.

Title: Supplementary Data 3.

Description: Tissue microarray key with corresponding RNAseq label.

Title: Supplementary Data 4.

Description: Minimal distances between cell-types in CODEX data.

Title: Supplementary Data 5.

Description: Minimal distances between cell-types in Vectra data.

Title: Supplementary Data 6.

Description: Gene expression of CIBERSORTx-resolved tumor cells per tissue microarray spot.

Title: Supplementary Data 7.

Description: Differentially expressed genes for the 10 annotated cluster.

Title: Supplementary Data 8.

Description: CIBERSORTx signature matrix.
